I.O.O.F. Hall Attic Gem

Newsletter #51, May 8th 2020, was about some articles that were found in the attic of the IOOF Hall. Some of the stuff was in a cardboard box, which I didn't show at the time. Well here it is.

It was a box from Peets soap company.

I searched and found that the Peet Brothers started a soap company in 1872. It was located in Kansas City, Kansas. They made all kinds of soap such as, Crystal White Laundry, Crystal White Soap Flakes, Cream Oil Toilet Soap, Imperial Peroxide Toilet Soap, Seafoam Naptha Washing Powder, Borax Washing Compound and A-B Bar Soap. That is quite an array of products for those days. The main plant in Kansas City is in this photo. Some products.

In 1864 B.J.Johnson started making soaps and in 1898 came out with a bar soap made of palm oil and olive oil. He called it Palmolive. I remember it as coming in

a green package with a black band around the middle. The soap was a light green. In 1917 he changed the company name from B.J. Johnson to Palmolive Company. In 1927 he merged with Peets. In 1928 they merged with Colgate, forming Colgate-Palmolive-Peet Corp. In 1953 Peet was bought out. So, we end up with Colgate-Palmolive Corp.

McGill News

The old home town is very quiet. One bright spot is that we will have the Drug Store Museum open, starting today. I plan to be there from 11-4 Friday, Sat. Sun. and by appointment on other days. We have been pretty much closed since April. Sue Manning and others have volunteered to open it on a few days, but now we can hopefully be on a schedule.

Old Photo

Recently I had a photo of the Club 50 breakfast menu as the old photo. Several folks wanted to know if I had the dinner menu. It was badly yellowed from age but I was able to fix it up a little. So here it is. What prices.

OZARK CAFE			

EVENING MENU			

1/2	SOUTHERN FRIED CHICKEN, in the basket		
	salad, french fries, toast and coffee -	1.95
